The **OGSIVEO Digital Companion** can help you stay on track during your treatment journey

The **OGSIVEO Digital Companion**, available on the free **Medisafe app**, helps you:

- Get reminders for your scheduled doses and refills
- Log symptoms and potential side effects, and upload photos or scans, which can help you have more productive conversations with your care team
- Find OGSIVEO information, tips, and resources conveniently within the app
- Manage your doctor's appointments and medications—including OGSIVEO—in one place
- Share your information with your family or care partners

Medisafe is available for iOS and Android.

Plus, patients who are enrolled in SpringWorks CareConnections® can connect with their Nurse Advocate directly through the app.

See [download instructions](#).

ACCESSING THE OGSIVEO DIGITAL COMPANION

Follow the steps below to download the Medisafe app
and access the OGSIVEO Digital Companion:

1

If you're on a desktop computer, scan the QR code. If you're on a mobile device, tap the badge that corresponds to your device.

2

Tap "Get" or "Install" to download the free Medisafe app.

Medisafe Pill Reminder
Medication and Tablet Tracker

GET In-App Purchases

3

Open Medisafe, then tap "Get Started."
Registration in the OGSIVEO Digital Companion should begin automatically.

If registration does not start, tap "Enter verification code" and enter the following verification code:

J7MG

4

Complete the onboarding steps and access the OGSIVEO Digital Companion.

Patients who are enrolled in [SpringWorks CareConnections](#) can obtain a verification code from their Nurse Advocate to register.

If you require technical support, please contact the Medisafe Customer Support team by sending an email to programsupport@medisafe.com.

Medisafe is a third party independent of SpringWorks and SpringWorks has no control over the Medisafe app. Please refer to the Medisafe app and OGSIVEO Digital Companion for the applicable terms of use and privacy policies.
